DETAILED ACTION

Response to Amendment

1. The amendment filed on August 6, 2004 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because they are drawn to a paste-like mass (original invention I) as opposed to a self-supporting layer (original invention II). It is further noted that the amendment to the specification is improper since the instant application cannot properly be termed a "continuation" of the instant application.

Applicant should also be receiving a separate notice that the Request for Continued Examiner is improper since prosecution of the application must be closed for such a request to be made.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
